

PAWS-ITIVELY SECURE

Tech tools to protect YOUR HOME

THE FACTS

- Burglars are **MORE LIKELY** to strike during **DAYLIGHT HOURS** than at night.
- According to the FBI, **OVER 55%** of home invasions involve a forced entry.
- Cities with populations **OVER 250,000** experience the **HIGHEST BURGLARY RATES**.

ALARM MONITORING SYSTEMS

WHAT THEY DO: Instantly alerts 911 during break-ins, fires, or other emergencies.

WHY THEY WORK: Loud alarms can scare off burglars and notify neighbors.

TECH TIP: Homes with alarm systems are *far less appealing to criminals*.

SMART DOORBELLS

WHAT THEY DO: Let you to see, hear, and speak to visitors remotely.

WHY THEY WORK: Keep your entry points under constant watch.

TECH TIP: Smart doorbells *deter package theft* and *record suspicious activity*.

SMARTPHONE APPS

WHAT THEY DO: Control your home's lights, alarms, and cameras remotely.

WHY THEY WORK: Make your home look occupied, discouraging burglars.

TECH TIP: You can create the illusion of an *active home*, even on vacation.

TRACKING SOFTWARE

WHAT IT DOES: Track the location of lost or stolen items, like phones or laptops.

WHY IT WORKS: Helps law enforcement recover your property more quickly.

TECH TIP: *Enable tracking* on all devices now — don't wait until it's too late.

ACTION STEPS TO PROTECT YOUR HOME

Lights make crooks nervous. Keep your front and back lights on at night.

Install **smart doorbells** and **alarm systems** to maximize security.

Use a professional **home security** company, if you can afford it, or check if law enforcement can inspect your self-installed **security equipment**.
